MEMORANDUM FOR THE DIRECTOR

Attached for your information is a list of U. S. Army technical intelligence requirements which were either expressed or implied during the Army Research and Development briefings presented by General Betts and his staff on 22 November. Copies of these requirements have been sent to the DD/S&T, DD/I, DD/P, and the Chairman of the Board of National Estimates with my request that these requirements be given priority consideration in the Agency's intelligence production and collection work.

DD/S&T has advised that a memorandum on the Navy's technical intelligence requirements should be completed during the first week of January. Requirements of the other services are also being prepared.

L. K. White
